FOR RELEASE ON 9 SEPTEMBER 2016

ARRI SkyPanel range grows with the double-length S120-C

(IBC 2016, Amsterdam) – ARRI expands its range of SkyPanel LED soft lights with the new S120-C, the biggest member of the SkyPanel family.

The highly acclaimed ARRI SkyPanel series of LED soft lights is growing, with the new SkyPanel S120-C joining the S60 and S30 family of products. The S120 is twice as long as the S60, but weighs nearly the same. Its larger light aperture makes a great soft light even better. Retaining the same features and color tuneability as its smaller counterparts, the S120 consumes less than 400 watts, yet it is slightly brighter than the S60-C and has an outstanding efficacy of 90 lumens per watt.

A large surface area is a crucial feature of a good soft light. With an aperture of 1290 mm x 300 mm (50.8" x 11.8"), the S120 outputs a beautifully soft, even beam of light that has a wide range of uses. The long aspect ratio wraps light around objects and is perfect for vertical lighting of people. In addition the S120 works well as an overhead light for large areas, with the increased dimensions meaning that fewer lights and less cables are required.

Released alongside the S120 are all the accessories needed for sculpting and controlling the light. Among the S120 accessories are honeycombs, eggcrates, barndoors, diffusion panels, the SkyBender and a new fabric barndoor called the FlexDoor. This wide range of accessories makes the S120 more versatile and easier to control.

About ARRI:

With headquarters located in Munich, Germany, ARRI was founded in 1917 and is the world's leading designer, manufacturer and distributor of motion picture camera, digital intermediate (DI) and lighting equipment. The ARRI Group comprises a global network of subsidiaries and partners covering every facet of the film industry, including worldwide camera, grip and lighting equipment hire through ARRI Rental; turnkey lighting solutions through the ARRI System Group; and film production, postproduction, digital lab services, visual effects and distribution through ARRI Media. In 2013 ARRI Medical was founded to utilize ARRI's core imaging technology and expertise for medical applications.

Manufactured products include the ALEXA 65, ALEXA SXT, ALEXA Mini and AMIRA cameras; Master Anamorphic lenses; SkyPanel, L-Series and M-Series lights; Pro Camera Accessories and the Electronic Control System; ARRILASER recorder and ARRISCAN Archive Technologies; TRINITY camera stabilization system; and ARRISCOPE 3D digital surgical microscope. The Academy of Motion Picture Arts and Sciences has recognized ARRI's engineers and their contributions to the industry with 18 Scientific and Technical Awards.
